DAN  FORM

SCANDINAVIAN DESIGN • INTERNATIONAL LIVING

Inspired by Nordic vibes

At the heart of our design philosophy is the belief that great products can transform the way you interact. Our designs are made with you in mind, from the materials used to the intricate details of each design.

Our chairs are more than just a place to sit. They are an extension of who you are and what you can achieve. Crafted to support your body, your mind and your soul, so that you can be your very best self.

Best regards,

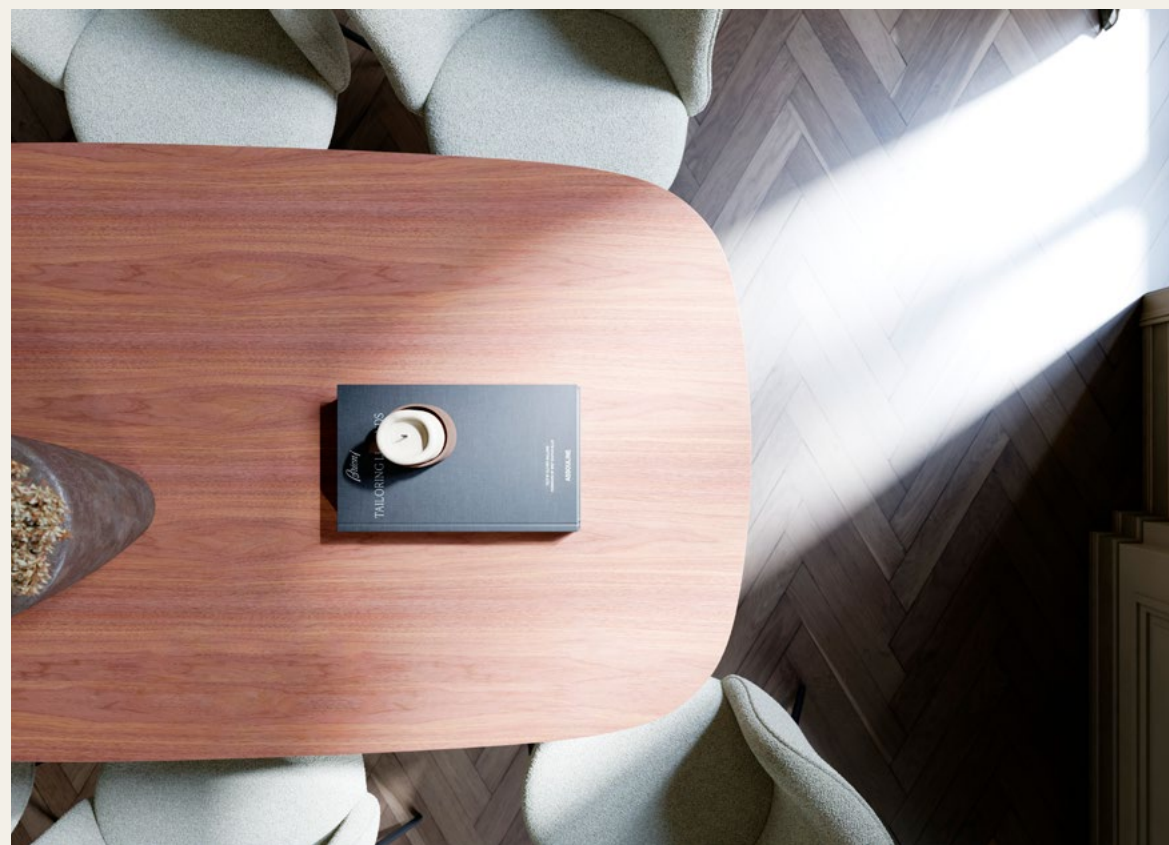

SANNE PROTIN

Minimizing impact

We are working on promoting and enforcing as environmentally friendly processes as possible through all stages of the production process; from suppliers and raw materials to the sale and distribution of the finished products.

Nature is an invaluable source of inspiration to create our designs. We believe it's our duty to preserve the nature that fuels our creativity.

By choosing sustainable materials and eco-friendly production methods, we minimize our impact on the environment.

ROVER

ROVER is a wonderfully urban design. The back twists into comfortable armrests, and with decorative stitching and a comfortable seat, this design is a real gem.

FSC[™] certification

Most of our furniture designs contain wood – whether it be in the formpressed plywood inside upholstered seats, as paper for our paper cord, or for wooden elements like furniture legs, table tops etc.

Obtaining our FSC certification is one of the steps we believe is necessary for our commitment to effective environmental and social standards. Look for our FSC certified products.

FRIYAY

The FRIYAY bookshelf with 4 or 6 shelves offers a playful and contemporary look. Each shelf is made from carefully crafted veneered bentwood. Mix and match with your favorite frame colour.

Materials

Exceptional furniture begins with exceptional materials.

Each material has been carefully curated with the intention of reinforcing the visual and tactile expression of our designs. Indulge in the soft feeling of our bouclé fabric, feel the smooth surface of the leather and find calmness in the beautiful lines of the wood.

DAN-FORM furniture often has that 'little something extra' in the form of a design feature, and many of our designs have handsewn stitching around the rim or decorative stitching such as baseball stitches in the seat.
