Eco Policy

With everyone looking for ways to create a better world we too are changing. DIK FAGUS is one of the first EU manufacturers/exporters to offer alternative fillings and coverings, our chairs are already manufactured with timbers from sustainable sources and in addition we can supply foams and coverings that also support that. We are introducing new measures to ensure that wherever possible we use non-toxic materials and foams as well as recyclable fabric to ensure we too are reducing our carbon footprint.

SEDEX

DIK FAGUS is member of SEDEX platform that shares data on labor standards, health and safety, the environment, and business ethics. Also has been conducted Ethical Trade Audit.

Construction

All our dining chairs are manufactured from sustainable sources using high quality beech wood. All forests are well managed to ensure regular supply and environment friendly atmosphere.

All frames are glued, screwed and dowelled for maximum strength, all seats are made from solid timber or webbing to give you the comfort you require.

All chairs are hand constructed giving strength, comfort and design along with durability you would expect from DIK FAGUS chairs with the best prices in EU guaranteed.
