# Customised Solutions

Need a customised gaming stool? Nextrend offer a large range of options to suit many different needs.

We offer a range of stocked gaming stool but can also offer contract and bespoke options depending on your needs.

## Contract

All our gaming stools in the range can be manufactured on a contract basis, allowing you to customise finishes to meet your project's exact specifications.

Lead times vary between 4 to 22 weeks, depending on the production location.

## Bespoke

Fully custom manufacturing to meet any requirement. This could involve reimagining an existing product from our range-modifying its shape, dimensions, or design-or providing inspiration images for us to interpret and replicate (while respecting protected designs, of course).

Bespoke design can also mean starting entirely from scratch. Share your vision with us, and we'll bring it to life as a functional, commercial furniture piece.

Lead times range from 5 to 23 weeks, depending on the production location.
