

S'48®

PRIME

WE OUTDOOR  
CATALOGUE 2025

The S'48 PRIME collection is a fine selection out of our total offer, this fine selection features furniture suitable for both home and contract use, with sizes are optimized for ultimate comfort and relaxation.

Many items of the PRIME collection are interchangeable with our Essence collection. This will give even more possibilities to decorate your outdoor space to your liking.

# COMPANY

## Deco Seating

Deco Seating comes with a long history in designing, developing and producing outdoor furniture. Starting out as a professional furniture factory in Italy back in 1948, the company has grown into a full service furniture supplier with its own brand of outdoor furniture.

The S'48 collection is designed and shaped by renowned industrial furniture designers from both Italy and The Netherlands. With their years of experience in the furniture industry they are able to design attractive collections without losing the cost exceptive out of site.

The Deco Seating team of young enthusiastic people are working daily on color and material creation, leading to some of the most durable and well colored materials in the market. A good example is our Deco All Weather Rope which is developed and tested using only the best raw materials and advanced weaving technics, resulting in a braid which is both durable and environmentally friendly.

We truly hope you will like the result and are more than happy to meet you during a visit to our workshops and showroom.

We Outdoor.

# Cleo

design Ed Van Engelen

Inspired by the legendary divan of Queen Cleopatra, the Cleo outdoor sofa set brings a touch of regal luxury to your outdoor living space. This voluptuous sofa is designed to offer both opulence and comfort, making it the perfect centerpiece for your patio or garden. Crafted with a sturdy aluminum frame, the Cleo sofa ensures durability and stability, while the cost-effective wicker weaving adds a sophisticated and timeless appeal. Whether you are reading a book or enjoying a glass with friends and family, this sofa set provides the ultimate in relaxation and style.

**CLEO**  
ONE SEATER SOFA  
TWO SEATER SOFA

# Web

design Edi e Paolo Ciani

Discover the perfect blend of style, comfort, and durability with our outdoor chair featuring sleek sled legs and a robust powder-coated and e-coated steel base. Designed to withstand the elements, this chair promises longevity and resilience, making it an ideal addition to any outdoor space. The seat is intricately woven with high-quality wicker, offering a sophisticated look and exceptional comfort. This chair provides the ultimate seating experience and makes a perfect match with our new Beluga table, made of a fiber glass bas topped with a solid sintered stone top.

**WEB**  
ARMCHAIR  
DINING TABLE

# Leaf

design Edi e Paolo Ciani

We added a new, lightweight but extreme durable family of furniture, Leaf. It's playful open weaving-style-helps keeping your outdoor spaces light and bright. The armchair has two variations, with and without ropes wrapped around the arms, giving the user more options for customizing the item. Side and armchair, stool and a deep seating set are available with many more surprising new additions to come.

# Diamond

design Edi e Paolo Ciani

Diamond combines a classic weaving pattern with small but very noticeable design elements. The arm rest of the dining chair connects delicately to the back rest while the sofa set shows a nice harmony between an oval frame resting on sturdy rounded legs.

For this occasion we combined the Diamond dining chair with the Pipe dining table, designed by studioPANG, learning us that its perfectly fine to combine different products from different designers, leading to a perfect harmony.

# Lee

design Ed Van Engelen

Slightly open and inviting arms making the Lee chair a pleasurable seating experience for all your guests. The Lee chair lets itself easily match with a wide variety of tables, like we did with matching the chair to our Rio table during the photo-shoot of the Lee chair.

The meeting point between the weaving system and the aluminum frame generates an outstanding mix of design, functionality and comfort.

# Ega

design Edi e Paolo Ciani

Ega, a majestic view for the eye. Sharing the idea of the inviting arms with the Lee chair gives also the Ega an very pleasant seating experience. Of course, is the Ega sofa set available in all color combinations, making it easy to customize the Ega to your liking.

# Method

design StudioPANG

A wide collection with a strong personality, very recognizable and able to seduce any user. A special weaving system gives at the same time force and harmony to all the pieces: dining chair, stool, lounge set and daybed. The Method collection is a full journey in the outdoor world, where nautical ropes envelop an original and robust aluminium tube frame, giving life to a unique family of products with charm and elegant feeling.

# Galleon

design Ed Van Engelen

A couple of pieces with a very strong personality where the warmth of teak meets an original aluminium frame, for a really sensational result. Galleon reminds the original structure of wooden hulls and the construction skills of the old craftsmen of nautical world, reinterpreted in a contemporary key for the world of outdoor furniture. The aesthetics are of sure effect, as well as the comfort and stability, for a collection able to be protagonist of any place you put it in.

**GALLEON**

# Drop

design Ed Van Engelen

The Drop family is a collection of outdoor seating that expresses an articulated stringing system that gives the product unique personality. The types of stringing can also be alternated, to obtain an even more complex and sophisticated design, characterized by two different levels that represent two different weaves. The chair is a cockpit model, enveloping and comfortable where the whole frame is crossed by the lapels rope. The bases of the various models are solid and linear, functional and at the same time with a characterizing design, capable of becoming the protagonist of the environment in which it is proposed.

**DROP**

# Lantern

design Ed Van Engelen - Deco Lab

Here is an ideal solution to complete the areas furnished with S'48 products with taste and consistency. Lantern is a collection of lamps made entirely of aluminium and rope that was created to be elegantly combined with any outdoor environment, but also, a transition between interior and exterior. Thanks to its simple design but at the same time rich in details, these lamps are perfect for warming the environment, bringing visual and bright comfort. The family includes three sizes of standing lamps and two floor versions, light and comfortable to freely move in complete autonomy.

## CARE INSTRUCTIONS

### Ropes

Deco Mesh Rope is made from complex fibre strings strengthened with filament yarns that give them a durable and resistant structure, while our Deco Polyolefin rope is made from highly durable synthetic resin yarns. The structure of our ropes makes them stain-resistant and easy to clean. In case there is a spot to clean, please use following instructions: Non-greasy marks: warm water spot clean with half a spoonful of any standard washing powder or liquid (non-bleach) in a cup of hot water. Blot the stain with a cloth or a sponge dampened with this solution. Once the spot is removed, sprinkle the area with clean water to remove any possible traces of washing powder or liquid. Do not use stain removers. Oil or grease spots: butter, oil, lipstick, and the like will not penetrate the yarn, so it can easily be cleaned in the same way as mentioned above.

Do not use high-pressure water spray equipment to clean the furniture in any case but use a general gardening hose instead if needed. Deco Ropes resist sunlight, saltiness, sunscreen cream, abrasion, sweat, stains, etc. for many years and provide worry-free maintenance.

### Fabrics

S'48 uses only the best-quality mesh, acrylic, and olefin fabrics, which have proven their durability in daily use. All fabrics have been successfully tested by following the ROHS and REACH test standards. Cleaning the fabrics requires not more than lukewarm water, a cloth, and, on some occasions, a mild detergent. The fabrics are designed so that no dirt or water can penetrate the fibers, so simply wipe off any dirt with a (lukewarm) wet cloth.

### Storage

When protected by a cover or stored indoors, make sure the fabrics and inner fillings of the cushions are completely dry to prevent possible infection by mold or fungus.

### Aluminium and Steel

Clean aluminum and steel furniture parts with water, mild soap, and a sponge. After cleaning, rinse the furniture with plenty of water to remove any possible residue.

### Teak

Teak is easy to clean with a combination of lukewarm water and soda. Use a soft brush to gently clean the affected part of the product. The color of teak, by nature, turns over time into a nice silver/grey patina. This does not affect the durability or weatherproof resistance of the product. It is a cosmetic change, which is liked by many. In case you wish to remain the original color, there are various products on the market to help achieve this. Products like teak protector and teak oil, as well as various teak repairs. When using a cover for your teak product, make sure you do not close the product airtight and leave some room for the teak to "breathe." This prevents mold or fungus growth, which can permanently damage the product

# DESIGNERS

#### **Ed Van Engelen** \_Netherlands

After his graduation at the Design Academy Eindhoven in 1988 he has been working as a designer for international companies for more than 20 years, mostly in garden furniture related companies where he was responsible for the designs of in and outdoor products. Since 2008 he is working independently for leading outdoor and decoration brands worldwide.

In this field he has won some international job awards and many of his designs have been commercially successful in the past years. As an experienced designer he knows the ins and outs of all kinds of materials and can be involved in the process from the first sketch as far as the last specifications in the factories.

#### **Edi e Paolo Ciani** \_Italy

Product and interior designers, they deal with design of furniture and articles of Industrial Design for over 30 years.

Since 1987 Ciani's brothers create and develop products for leading companies in the furniture for home, for office, for contract and outdoor. Given their long experience in the design furniture industry, they are able to offer assistance to customers from the first concept about each project up to technical and production consultancy.

#### **studioPANG** \_Italy

Fabio Damiani and Marco Quistini set up studioPANG in 2012, based on the shared idea that by combining diverse passions and skill sets, the approach to the project is enriched with new ideas and perspectives.

Design, architecture and communication are, first and foremost, opportunities for comparing and contrasting, before being channelled into the project. StudioPANG is a workshop – one that is constantly engaged on researching and developing ideas and projects; an open, dynamic environment that leverages a wealth of different experiences to give rise to a versatile and multi-faceted business.

#### **Deco Lab - S'48**

The Reserch & Development office of Deco Seating is constantly on the move to respond promptly and with attention to the multiple requests of the market, carrying out meticulous and careful work in creating perfectly suitable products for the outdoor world.
